

WHAT YOU SHOULD EXPECT

...from the painting/wallcovering contractor you select to redecorate your home or business

YOU SHOULD EXPECT...

- 1) Your furniture, floors and carpets to be protected from start to finish by drop cloths or plastic.
- 2) Any loose paint or nubs should be removed by scraping or sanding.
- 3) All cracks should be repaired by fiberglass mesh system, plaster or by spackle for hairline cracks.
- 4) Glossy surfaces should be dulled by sanding and washed or undercoated with the appropriate primer to insure proper adhesion.
- 5) Only quality materials should be used. Quality materials give the best results and last longer.
- 6) The work should be done in a neat and professional manner by skilled craftsmen who are polite, friendly and respect your property as if it was their own.
- 7) All painting/wallcovering debris should be removed from the premises by the contractor.
- 8) Of course, when papering there should be no paste on the wallcovering, woodwork, carpets or floors. The interior/exterior work space will be left clean when completed.

WHY WE SUGGEST LINING PAPER

- Many high-end manufacturers recommend lining paper for their high-end papers.
 - Lining paper minimizes seam shrinkage.
 - When paper dries, the lining grabs the seams.
 - The lining locks the seams in place by drying faster.
- The lining paper absorbs excess paste from appearing on the surface of the wallpaper.
- Lining paper adds life to the wallpaper job because lining paper is the perfect surface for wallpaper and fabrics.
- Lining softens the wall, functioning the same way padding does for carpeting.
- If there are weak spots in the skim coating of the walls, the lining paper will detect problems and at this point, all problems can be resolved.
- Lining insures finished papering adheres to the wall liner and gives you an absorbent surface for finished goods.
